

ANALYTICAL BALANCE

EXTERNAL CALIBRATION

FEATURES :-

- Automatic External Calibration
- A built in under hook for below weighing system (optional)
- Easy to read LCD Display with back light
- Density measurement for solid and liquid (Optional)
- Standard RS 232 C interface
- Based on E.M.F.C. Technology
- S.S. Weighing Pan, Level Indicator, Adjustable Fit
- Full tare range up to max. Capacity of the Balance

TECHNICAL DATA

MODEL NO.	DWAI-124	DWAI-224	DWAI-314
Max Capacity	120g	220g	310g
Readability (acc.)	0.1mg	0.1mg	0.1mg
Tare Range	Full		
Repeatability	±0.1mg		
Linearity	±0.2mg		
Pan Size	85mm		
Stabilization time	3-4 sec		
Communication	RS232 Interface & USB		
Calibration	External Calibration		
Weighing Units	Muilt weighing Units		
Power	230 V / 11V AC or 120 V / 11 V AC		
Display	LCD DISPLAY WITH Back Light		
Working temperature	10°C - 40°C		
Net weight & gross weight	5.6/8.3 kg
